NUTEK® INTRODUCES SUPERIOR GRILL CLEANING WIPES AT THE 2010 NATIONAL HARDWARE SHOW

Nutec, LLC, an environmentally-conscious company in Chagrin Falls, Ohio is launching a superior grill cleaning solution at the 2010 National Hardware Show, held in Las Vegas. Nutec will introduce one of its newest innovations: Simply Soy™ high-performance, heavy-duty grill cleaning wipes.

Made from soy grown in the United States, Nutec's grill wipes are 100% biodegradable and feature recyclable packaging. The grill cleaning wipes feature an extra large, tough cloth-like wipe that will not shred, tear or fall apart during use.

Nutec's grill cleaning wipes remove charred materials and stubborn, greasy messes from both metal and porcelain grills and leaves grilling surfaces cleaned and lubricated for the next use, making them the safe alternative to harsh chemicals with toxic ingredients. These wipes are certified for safe use in food areas by the National Science Foundation in areas (1) and (2). The formulation's lubricating characteristics provide consumers with a grilling surface that is non-stick, not unlike professional grilling solutions.

"We all leave our grills in terrible shape after each use," contends Nutec CEO, Cathy Horton. "We created these powerful wipes based on our own experience with existing cleaning solutions. We found them to be toxic, inconvenient and simply ineffective. Our new product cleans grill grates so well, consumers that despise the task will want to use the wipes to not only clean, but to reduce the need to clean."

Stop by **BOOTH 3328**
for a free sample of
our new grill wipes.

Nutec's CEO, Cathy Horton will be demonstrating the cleaning power of the wipes at the National Hardware Show. Additionally, Nutec is providing a free sample at their booth: 3328. Those that stop by the Nutec booth for a sample will be entered into a contest to win a professional series grill from Charbroil®. The company is also exhibiting at this year's Tailgate Party. Be sure to stop by on Cinco de Mayo, May 5th for additional fun and information.

The Nutec Simply Soy™ Grill Cleaning wipes are sold direct, and are available for wholesale and retail distribution. The wipes can be purchased by calling 1-800-NUTЕК-4-U, or through their website at www.nutekgreen.com. Orders can also be placed at the show.
